

## **New Man Story Larry Kudlow — Your Will Be Done**

**“Sometimes you really have to get slammed to wake up. You don’t know how good your life is, until and unless you lose it. The stuff we take for granted should never be taken for granted.” — Larry Kudlow**

Larry Kudlow is an American financial analyst and former columnist and television host. He currently serves as Director of the National Economic Council under President Trump, a position he has held since 2018. His story of salvation and restoration from drug addiction is not normally covered. However, he is transparent about that when called upon to give his testimony. He did so for us at Men’s Golf Fellowship.

### **MGF Talk Discussion Questions**

1. What prevails in your life...your will or God’s?
2. Have you ever been in a position where change was your only option?
3. How has God changed you? How do you want/need Him to?
